

## 4EU+ Shared courses at the University of Warsaw: key information in a nutshell

- Deadline for submitting shared course offers: **4 September 2023**
- How to submit an offer of an online course as a 4EU+ shared course to be made available to students and PhD students of 4EU+ Alliance partner universities ?

All you need to do is **fill in the table** using [this link](#).

and

make sure the courses offered meet the following criteria:

1. They are ready to be offered in an **online or hybrid mode in the winter semester** of the academic year 2023/2024;
2. They will be conducted in one of the languages of the 4EU+ Alliance partner universities (German, French, Italian, Danish or Czech) or in English. Courses taught in languages other than English and the official languages of the 4EU+ universities will also be accepted as of winter semester 2023/2024. Important information regarding language courses: under this initiative, **we cannot share language courses (lektoraty)** unless the unit offering the course in question agrees to accept 4EU+ university students **free of charge**;
3. They are conducted using innovative teaching methods and techniques;
4. They support the development of the competences and skills identified by the 4EU+ Alliance as key in European education, such as multiculturalism and multilingualism, data literacy, social engagement, critical thinking and entrepreneurship (<https://4euplus.eu/4EU-30.html>).

Courses corresponding thematically to one of the 4EU+ Flagships (<https://4euplus.eu/4EU-35.html>), are welcome; however, a link to these areas is not a prerequisite for the courses in question to be included in the pool of shared courses.

- Important information regarding **administrative support**:  
Organizational units that will offer more than 3 shared courses should provide partial administrative support for 4EU+ students, including reviewing applications, controlling limits and registering students for courses in the USOS system.
- How many 4EU+ students can be admitted to courses?  
**The limit for admission of 4EU+ students** is set by the teachers themselves when offering a course filling in the table (linked above), but please note that **the minimum number of spots required for each course to be launched, set in the organizational unit, must be filled by UW students**.
